DETAILED ACTION

1. Restriction to one of the following inventions is required under 35 U.S.C. § 121:

I. Claims 1-14, drawn to a process for preparing an allogenic cell population, classified in Class 435, subclass 343.

II. Claims 21-22 drawn to peripheral blood mononuclear cells and a population of T-cells, classified in Class 435, subclasses 372 and 372.3.

The inventions are distinct, each from the other because:

2. Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)).

In the instant case the process as claimed can be used to produce other oxidatively stressed cells such as oxidatively stressed B cells.

3. Because these inventions are distinct for the reasons given above, and the search required for any group is not required for any other group, and because the different groups have acquired a separate status in the art because the searches are not co-extensive, and because the inventions encompass divergent subject matter, restriction for examination purposes as indicated is proper.

4. Applicant is advised that a response to this requirement must include an election of an invention to be examined even if the election is traversed.

5. Any inquiry concerning this communication from the examiner should be directed to Dr. Gerald Ewoldt whose telephone number is (703) 308-9805. The examiner can normally be reached Monday through Thursday from 7:30 am to 5:30 pm. A message may be left on the examiner's voice mail service. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christina Chan can be reached on (703) 308-3973. Any inquiry of a general nature or relating to the status of this application should be directed to the Technology Center 1600 receptionist whose telephone number is (703) 308-0196.
